

EARTH VENTURE

Instrument-1

Ground Rules

for the PEA Pre-Bidders Workshop

Kenneth W. Jucks

Earth Venture Instrument-1 Program Scientist

Mitra Dutta

Earth Venture Instrument-1 Program Executive

Science Mission Directorate

WORKSHOP GOALS

- To provide an overview of the released EVI-1 PEA to the released SALMON-2 AO
- To address questions
- To provide clarity to sections of either document as required.

EVI-1 AO Major Milestones

SALMON-2 draft AO Release Date	August 24, 2011
SALMON-2 comments were due	Sept. 16, 2011
EVI-1 Draft PEA release	Sept. 29, 2011
EVI-1 PEA comments were due	Oct. 28, 2011
EVI-1/SALMON-2 final release	Feb 7, 2012
NOI due date	March 22, 2012
Proposals due	May 8, 2012

EVI-1 PEA Pre Bidders Workshop: Rules of the Road

- The solicitation (SALMON-2 AO and EVI-2 PEA) itself is/are the **governing** document(s) and takes precedence in the event of a discrepancy with any of the presentations
 - The workshop's purpose is to provide an overview of the AO and any needed clarification.
 - All presentations will be consistent with the solicitation and referenced documents and web sites
 - Presenters will not modify the solicitation in any way during the workshop, nor will they create new implied requirements with their presentations and responses to questions
- There will be opportunities for Q&A following every speaker
 - Attendees may submit written, anonymous questions (or oral non-anonymous)
 - All answers will be consistent with the solicitation
 - Speakers may answer "we'll look into that" when responses require research or further discussion by NASA
 - All Q&A will be captured by a note taker and posted in the FAQ (posted at <http://essp.larc.nasa.gov/EV-1>)
- All workshop presentations will be posted on the EVI-1 AO Workshop page (<http://essp.larc.nasa.gov/EV-1/>)

Workshop Rules

- Questions allowed and encouraged
- For at least three kind of questions:

If the Answer is:

That question is easily answered, ...

That question is not relevant, ...

An excellent question, I'll get back
to you.

The Translation is:

The questioner may not have read the solicitation

A non-issue, doesn't matter

Yikes, hadn't thought of that;

I'd better not say anything definitive

- Questions relating to clarification of a point during presentations are allowed
- Save questions of application for after presentation

PRESENTATIONS

- Presentations involve top level policy, process, and constraints
- This is your opportunity to better understand the AO language, policies and processes (some policies are law)
- Presentations and Q&A will be posted on the acquisition web site:

<http://essp.larc.nasa.gov/EV-I/>

EVI-1 Pre-Bidders Workshop; March 15

1:00	Welcome and Introductions	<i>Stephen Volz, NASA HQ</i>
1:15	Workshop goals	<i>Ken Jucks, NASA HQ</i>
1:25	EVI-1 PEA Science and Science Evaluation	<i>Ken Jucks, NASA HQ</i>
1:40	EVI-1 PEA and TMC Evaluation	<i>Cindy Daniels, SOMA NASA, LaRC</i>
2:00	Evaluation Programmatic Considerations	<i>Ken Jucks, NASA HQ</i>
2:05	Common Instrument Interface	<i>Craig Jones, NASA ESSP, LaRC</i>
2:20	ESSP Program Management of EVI-1 Mission	<i>Frank Peri, NASA ESSP, LaRC</i>
2:30	International Participation	<i>Matt Koeppe, NASA HQ</i>
2:40	Export Control	<i>Paula Geisz, NASA HQ</i>
2:50	Questions & Answers	
4:00	End of Workshop	

QUESTIONS

- Answers to ALL FAQs will be posted in association with the EVI-1 PEA.
- Questions about the PEA to SALMON-2 can be submitted until 01 May 2012.
- Questions submitted today will be addressed as time permits and as appropriate answers can be generated.
- WebEx users please e-mail (subject line to read " EVI-1 PEA") questions to

kenneth.w.jucks@nasa.gov

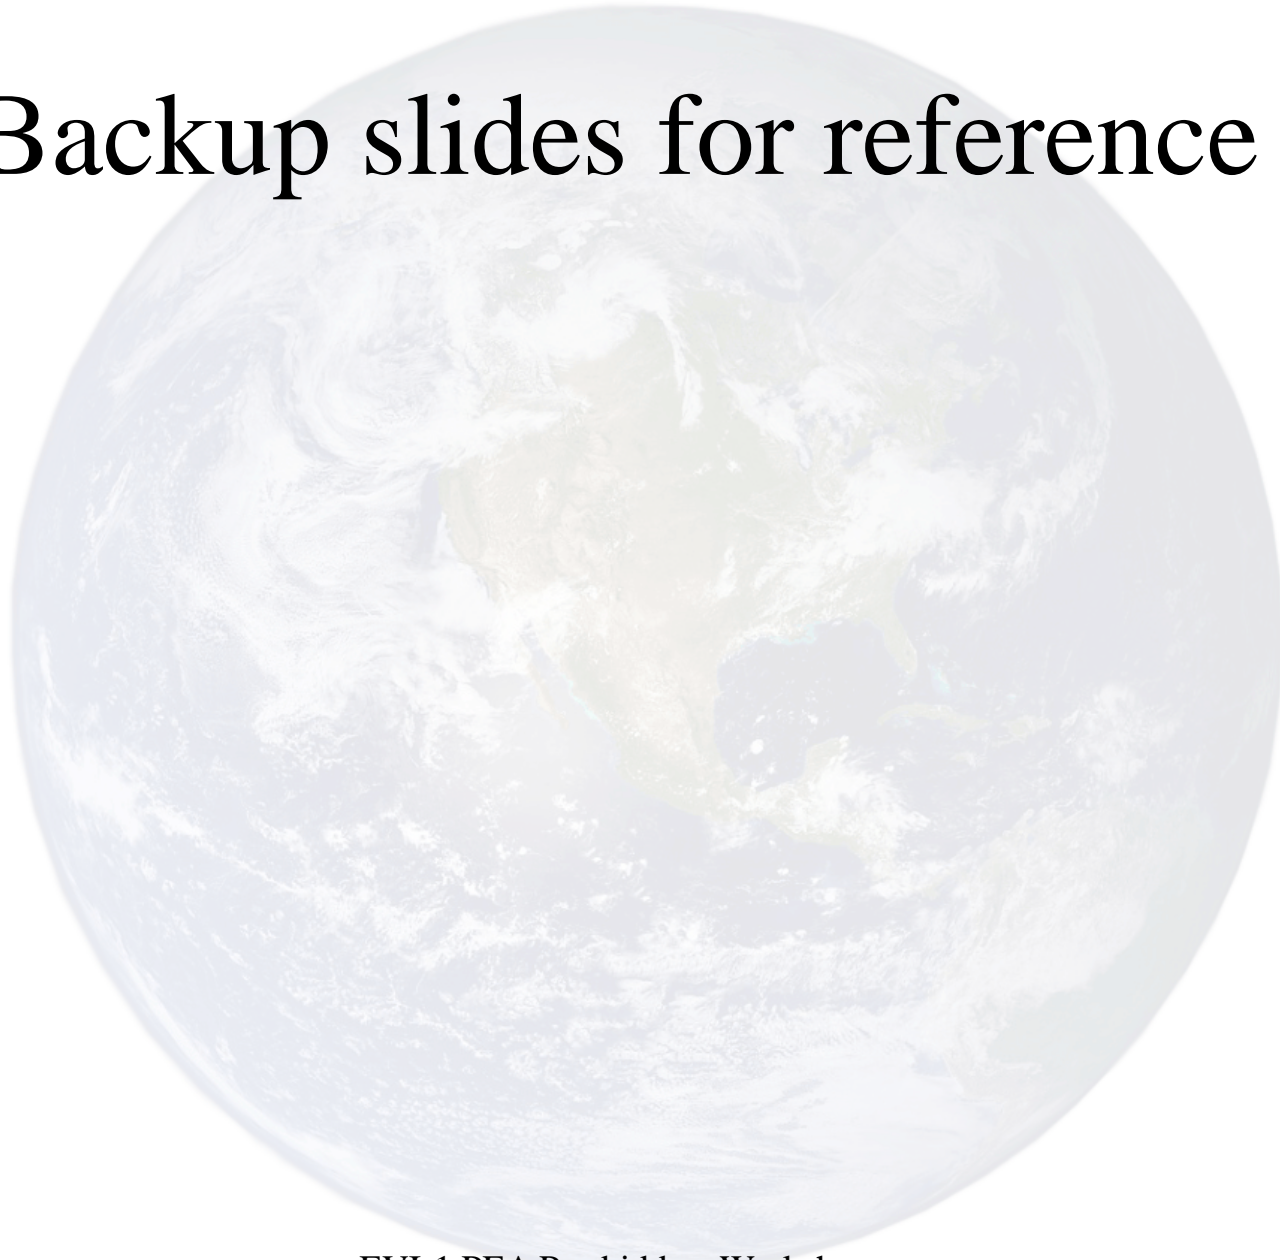

DISCLAIMER

Any costs incurred by prospective investigators in preparing submissions in response to this PEA to the SALMON-2 AO are incurred completely at the submitter's own risk.

Backup slides for reference

Example Question (example currently on FAQ page)

Question 4 :

Can you address how proposers should account for the potential 4 month gap between selection and receipt of funding? Will the five year clock start upon receipt of funding?

There is no “official” 5 year clock. Section 4.4.2 and requirement J-12 of the EVI-1 PEA states that “Each selected investigation under the EVI solicitation will be expected to deliver an instrument that can be integrated onto a selected platform by September 30, 2017.” Each proposal will need to demonstrate they can meet this requirement.
