

Program Management Overview

EVI - 1 Draft SALMON PEA Workshop

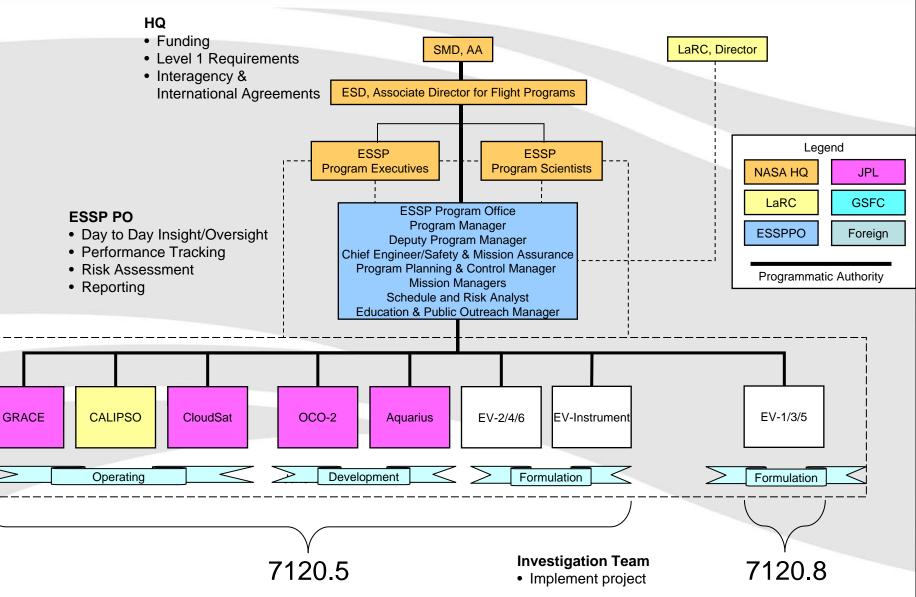

Earth System Science Pathfinder Program Office

Frank Peri Program Manager October 17, 2011

Program Organization

NASA responsibility

- Program administration
- Moderate insight, oversight
- Project plan approval (at KDP C)
 - Reviewed for thoroughness, PI responsible for content choices
- Limited NASA verification except for flight safety and interfaces

PI responsibility

- Defines approach to managing the project
- Defines standards, processes and practices for mission assurance
- Mission implementation (approach & execution)
- Performance/Cost/Schedule/Risk management
- Design guidelines
- Peer reviews

- Interactions between NASA and PI involve participation in project reviews and Technical Interchange Meetings, Science Team Meetings, etc
- Weekly telecons/meetings keep communication open to understand implementation progress and foster discussion of issues
- Monthly reporting to NASA program coordinated with Center reporting process & products
- When issues arise, NASA may enlist the support of Subject Matter Expert (SME) to provide assessments
 - Typically done in conjunction with the project's activity or tiger teams.
 - SME observation/reporting can be used to support the project decision making process.

- Reports provide insight and record of progress to NASA
- Reflects technical, schedule, cost and risk status as well as "look ahead"
- Weekly telecons
 - Focus on current tasks, progress to be made during the week, and issues
 - Informal format (electronic media)
- Monthly reports
 - Assess and measure progress against the investigation baseline (technical, schedule and cost)
 - Review risks, mitigation plans and issues
 - Typically includes the Project Manager Assessment, Science Status, and Integrated Performance Management metrics (cost, schedule, technical, risk) for predictive assessments of future performance
- Ad hoc telecons/meetings

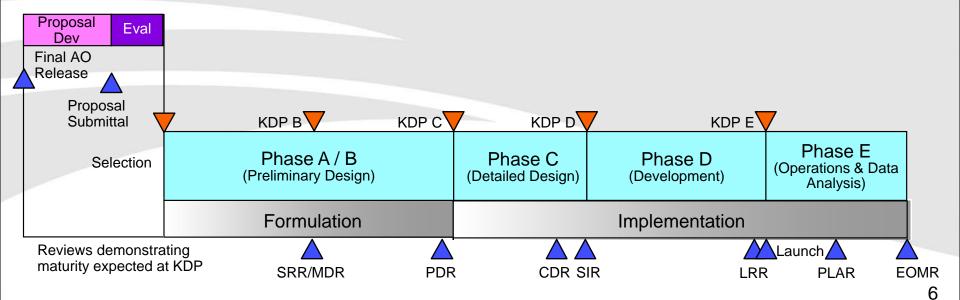

- Reviews according to NASA Interim Directive (NID) for 7120.5D
 - A copy of the NID can be accessed in the NODIS Library at: <u>http://nodis3.gsfc.nasa.gov/displayDir.cfm?Internal_ID=N_PR_</u>

7120_005D_

- Link is embedded on this page (reference document number NM 7120-97)
- Key Decision Point (KDP) meetings are conducted at HQ
 - Establish authority to proceed to next phase

- Principal Investigator
 - PI develops and approves all agreements between PI and other organizations (Investigation internal)
 - Interagency agreements developed by PI, in coordination with NASA HQ and Program Office, signed by SMD AA
 - International agreements developed by PI, in coordination NASA HQ and Program Office, signed by Office of International and Interagency Relations (OIIR)

Program Office

- Task Plans, Internal Task Agreements (ITA's), or Contracts between the Program Office and PI and implementing organizations established to document understanding of expectations and funding profile
 - Management/Development Approach
 - Scope of Work/Work Description
 - Schedule
 - Cost Estimate
 - Deliverables
 - Period of Performance

- Proposal team delivers draft Statement of Work (SOW) with proposal
- NASA Technical Monitor and selected proposal team, with guidance from the NASA Contracting Officer, finalize the SOW and the deliverables
- The NASA Contracting Officer will:
 - Request revised cost proposal and negotiate based upon finalized SOW and contract type
 - Negotiate type of contract/terms and conditions based on best method to achieve the objective of the statement of work and project and considering the contractors cost accounting system
 - Request certified cost and pricing data
